Vietnam Learning Center on Environmental and Social Sustainability (LC) - Competency Development for PMUs and professional consultants

LC addresses to the biggest needs of:

- Capacity building of PMUs
- Competence enhancement of PMU's professionals, local government officers and consultants
- Development of a professional career for relevant professionals
- Participants who complete and meet the LC's requirements will get a certificate of course completion of the LC/AITVN.

INTRODUCTION

The Vietnam Learning Center on Environmental and Social Sustainability (LC) was established in April 2015 under the Memorandum of Understanding (MoU) between the Asian Institute of Technology in Vietnam (AITVN) and its development partners, including the World Bank Group, the Asian Development Bank (ADB), the United States Agency for International Development (USAID) and the Department of Foreign Affairs and Trade (DFAT) of the Australian Embassy. The center is being established with initial funding support from the Australian Government. Other development partners have committed to

provide technical support. The mission of the LC is capacity building of the Project Management Units of Infrastructure Projects in the short term and strengthening of the Environmental and Social Impact Assessment Process in Vietnam and the region in the long-term.

LC's training programs focus on:

- ODA Effectiveness
- Environmental and Social Safeguards
- Project Implementation and Management
- Climate Change
- Sustainable Development

Priority for competency development:

- Better application of the government's and donor's policies and guidelines on Environmental and Social Safeguards
- Prepare, implement and monitor an environmental and social impact assessment, environmental/social/resettlement management plan effectively
- Better communication and participation for meaningful consultations with the affected people and communities;
- Manage grievance redress and conflicts effectively
- A comprehensive project design and implementation process

WHAT WE DO?

We design, organize and ensure an international standard quality of:

- Short-term training courses
- Training and study tours in the Asian and European countries and the U.S
- National and international workshops
- Consultancy services

HOW WE DO IT?

- Environmental and Social Impact Assessment (ESIA)
- Environmental Impact Assessment Review (EIAR)
- Effective Environmental Management during Construction (EEMC)
- Strategic Environmental Assessment (SEA)
- Cumulative Impact Assessment (CIA)
- Biodiversity Assessment (BA)
- Health Impact Assessment (HIA)
- Involuntary Resettlement (IR)
- Effective and Sustainable Project Management (ESPM)
- Climate Change and Infrastructure Planning (CCIP)
- **International Exposure Programs on ESIA tailored for each sector (Oil & Gas, Mining, Energy and Tourism)**
